

Designer Spotlight | Drury Design

April 21, 2017

Drury Design is an interior design firm located in Chicago, spearheaded by the talented design eye of Gail Drury. Don't just take our word for it, the firm has won more than 70 awards in the design space! Plus, pictures speak a thousand words and Drury Design has plenty of beautiful images of their keen design aesthetic.

For example, this beautiful black and white kitchen with standout red knobs on the stove (doesn't every cook dream of an oven with the classic red knobs?). Another star in the kitchen? The **Blizzard** countertops complementing the geometric backsplash.

It's a storage bonanza in here! Wall to wall cabinets conceal the refrigerator and provide tons of storage options leading into the mudroom. The seamless transition from room to room is stunning! Even more storage options – the shelving unit beneath the **Frosty Carrina** island.

Our own **Emperadoro** surrounds the perimeter to complete the black and white space.

We're seeing double in this amazing modern space by Drury Design! Double the stools, double the sinks, double the cabinet pulls! With **Lagos Blue** around the perimeter and **Blizzard** topping the island, there's double the Caesarstone too!

Don't forget the double vent hood! This statement piece, surrounded by glistening blue tiles, is the focus of the kitchen.

We finish this designer spotlight in the bathroom with **Linen** on the countertops and style throughout. Custom cabinetry frames the vanity and custom design colors the luxurious shower. Bubble bath anyone?
